

S1: Photomicrographs

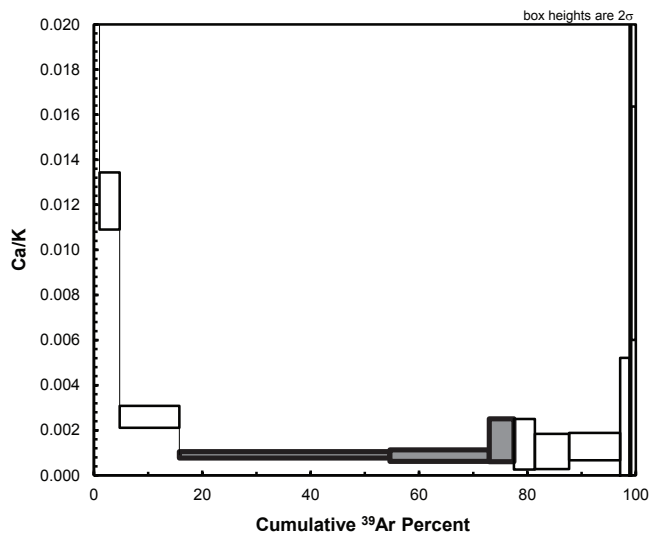

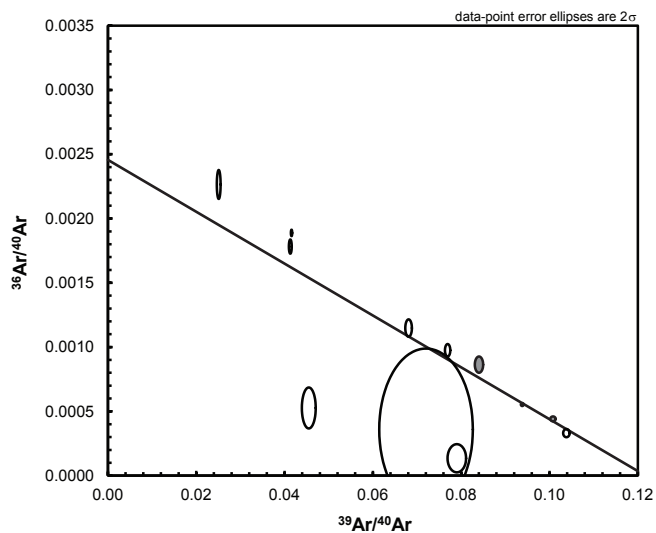

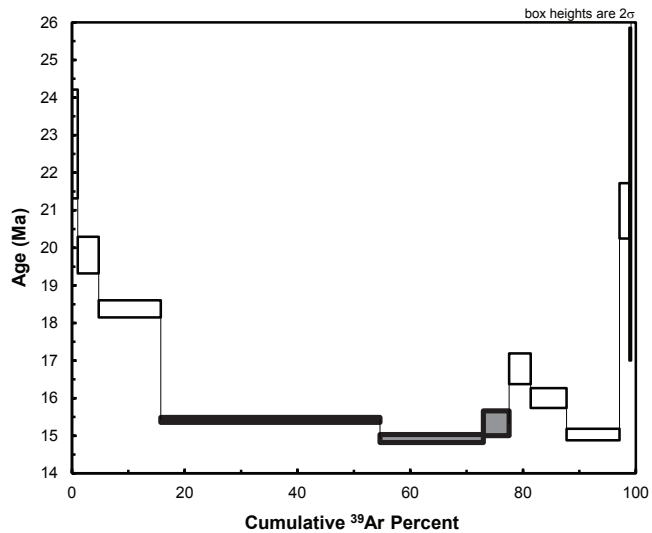

S2: 502056 muscovite

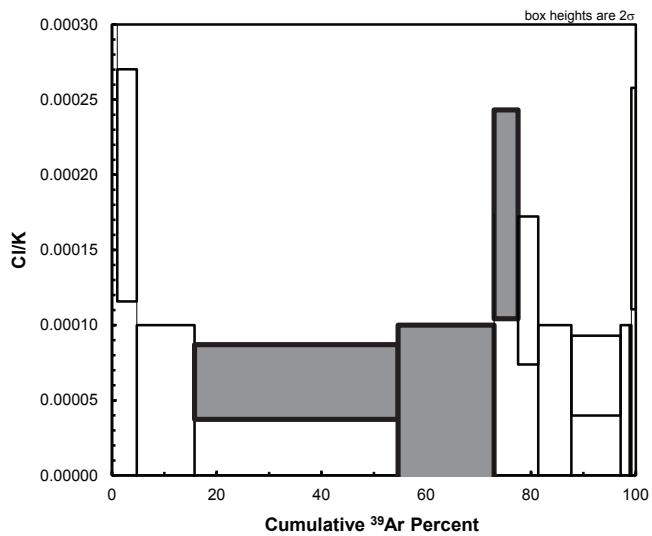

Steps shaded gray were used for age determinations.

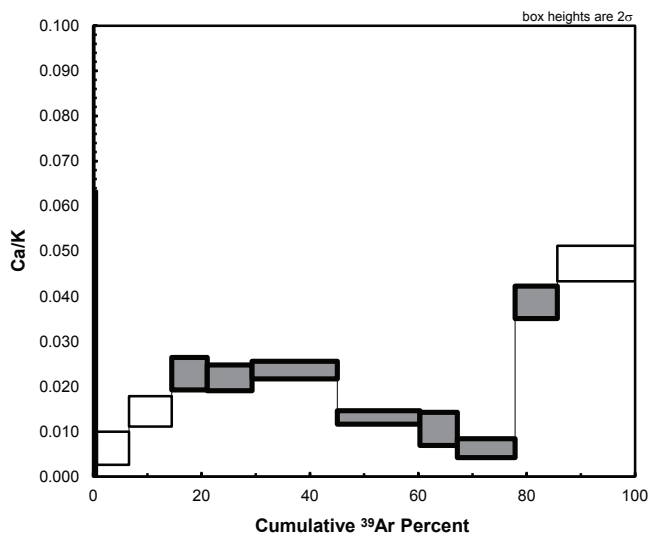

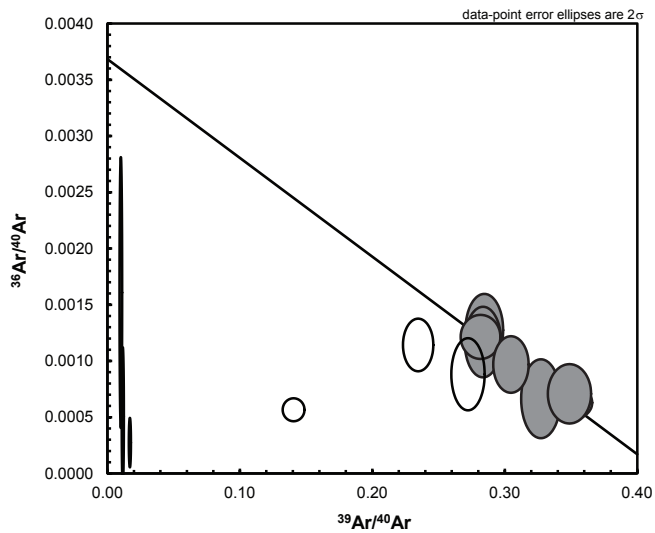

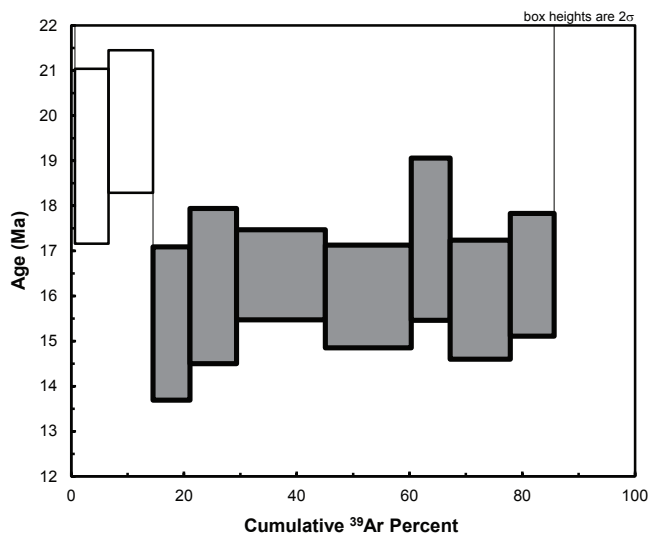

S3: 502050 muscovite

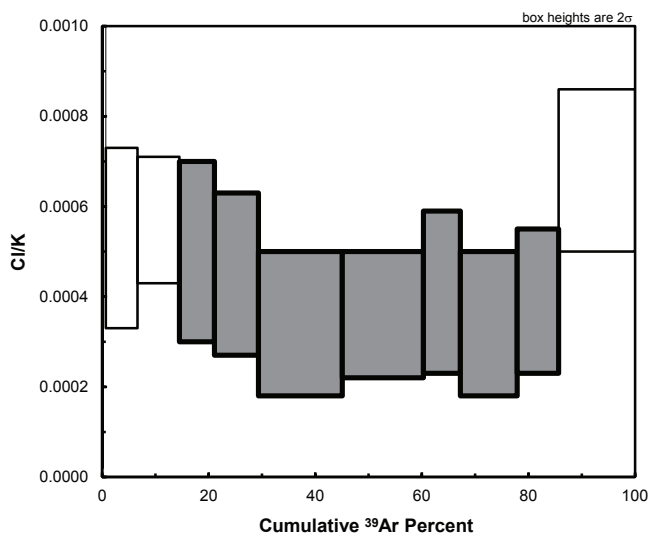

Steps shaded gray were used for age determinations.

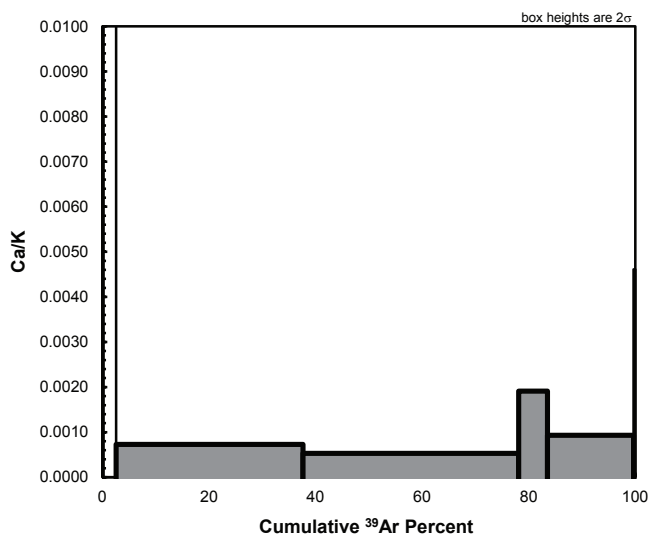

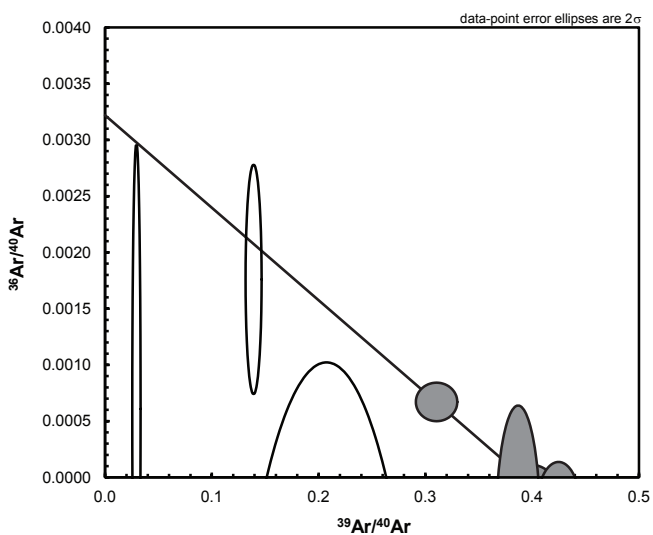

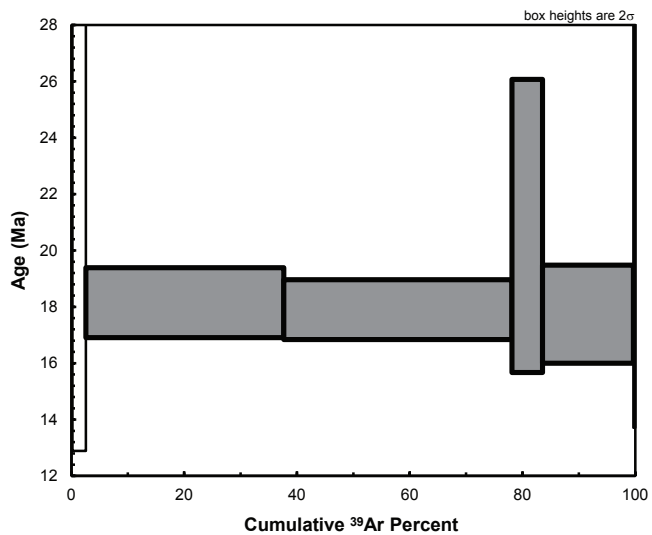

S4: 502067 muscovite 200 microns

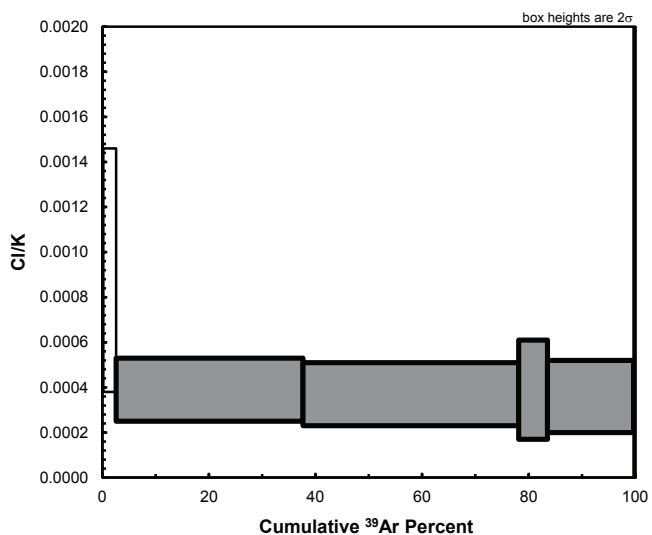

Steps shaded gray were used for age determinations.

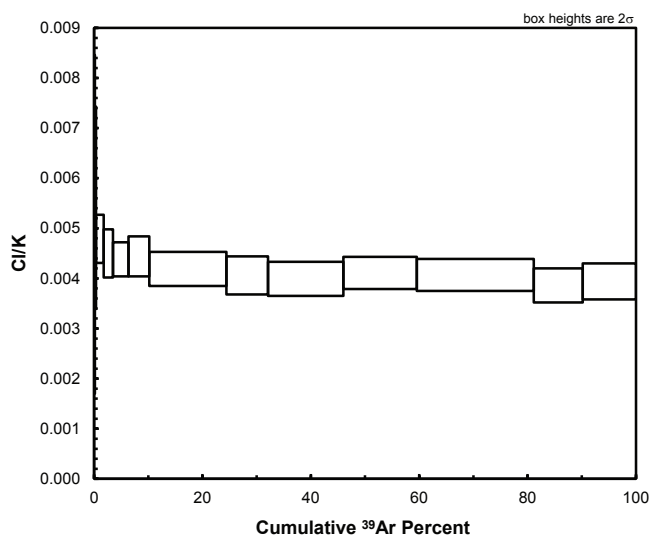

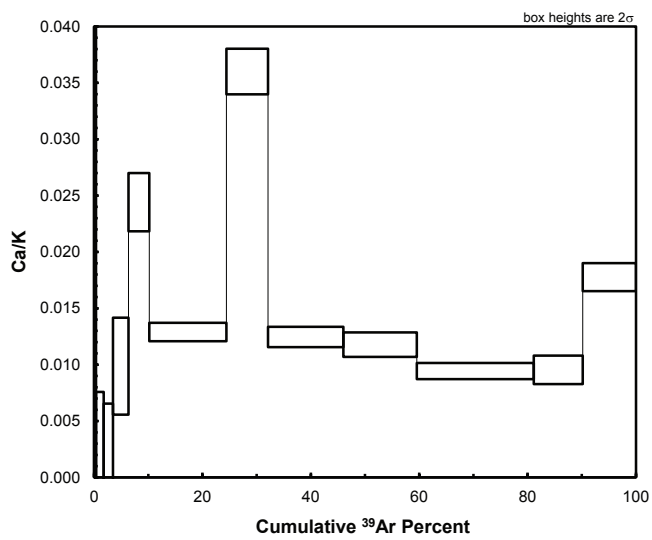

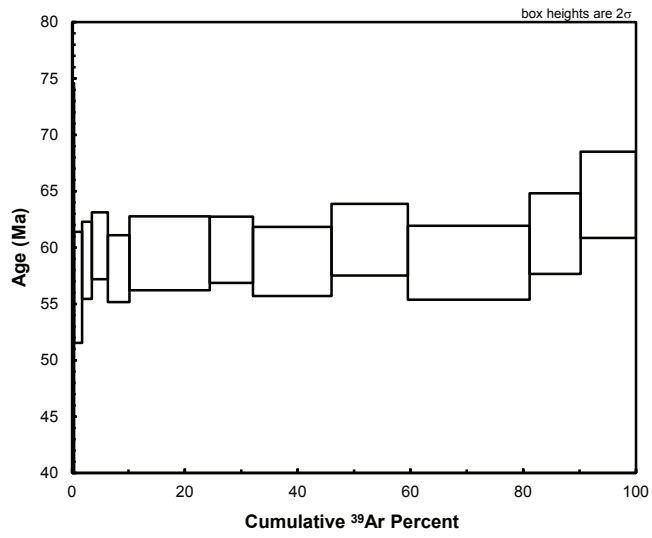

S5: 502067 muscovite 750 microns

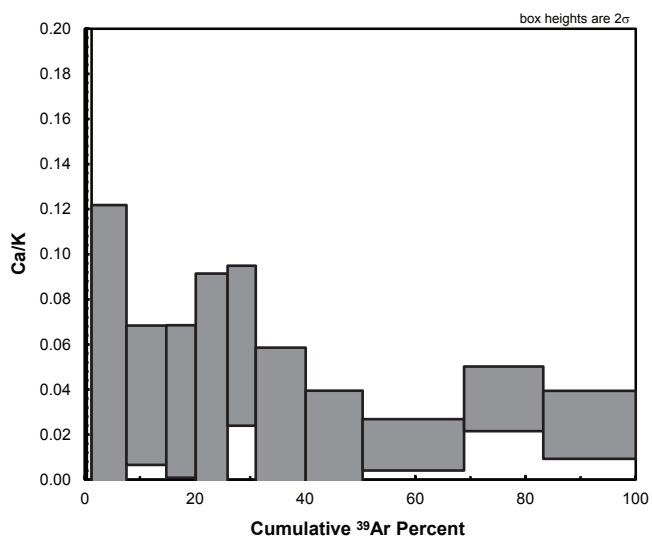

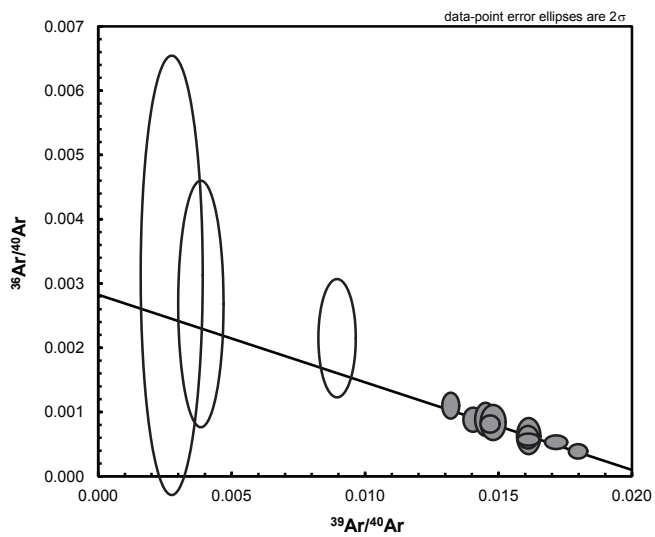

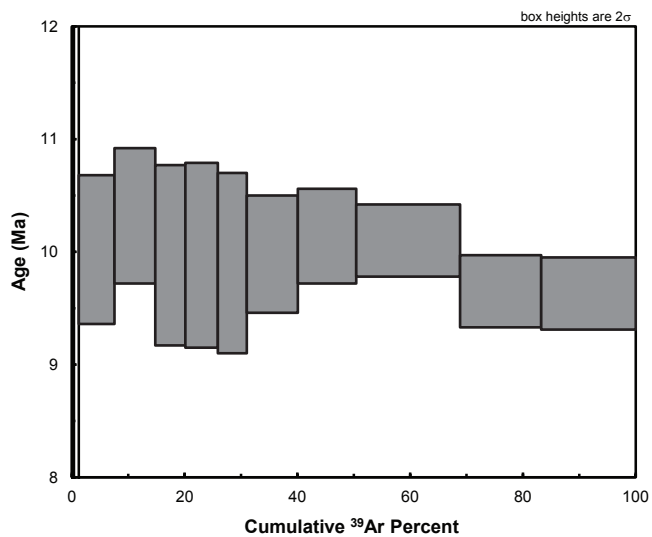

Steps shaded gray were used for age determinations.

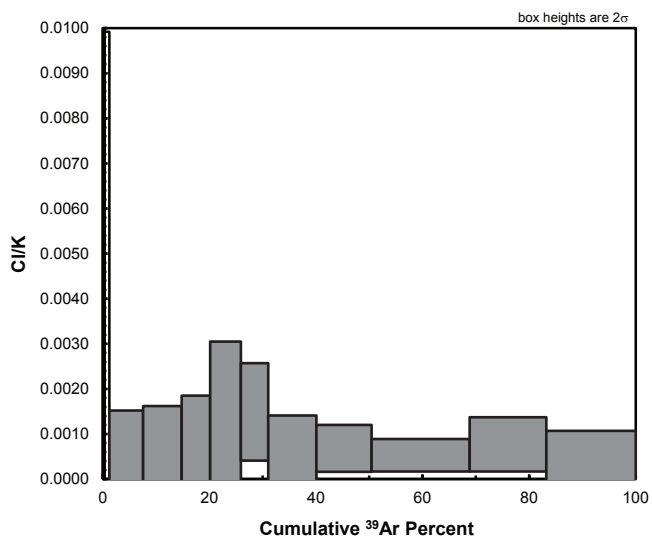

S6: 502067 biotite 200 microns

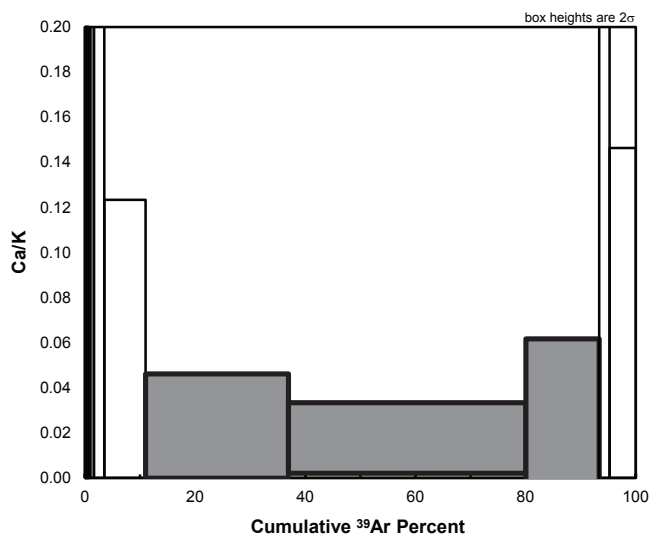

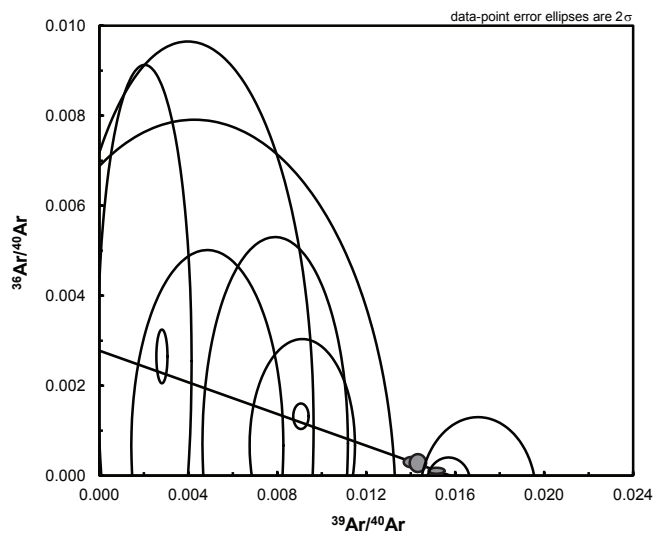

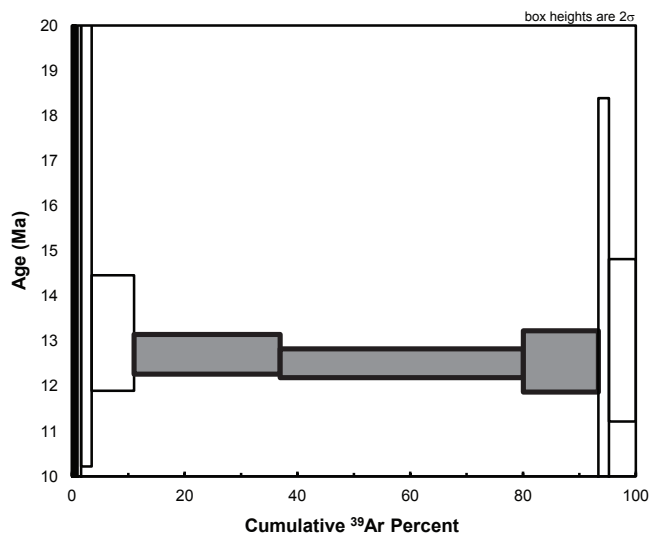

S7: 406042 muscovite 200 microns

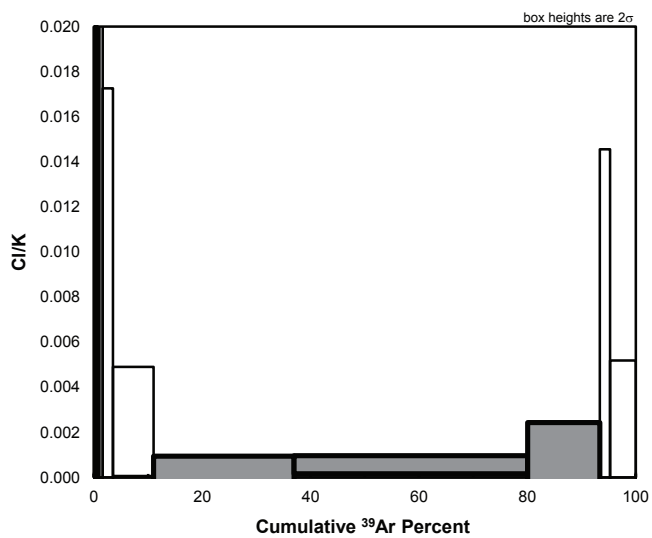

Steps shaded gray were used for age determinations.

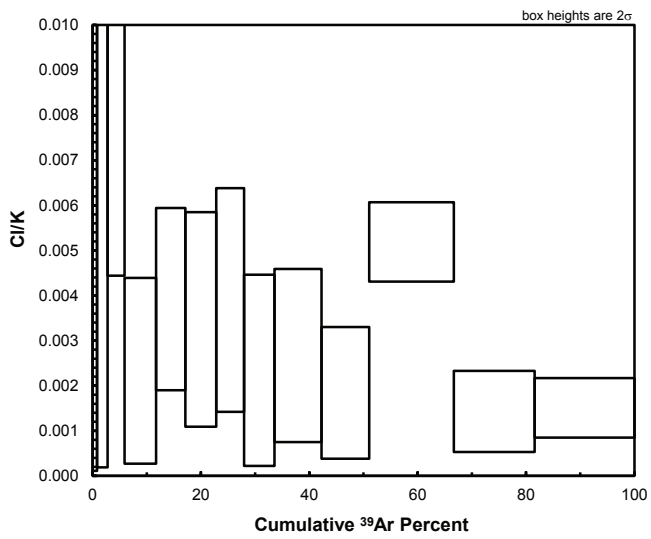

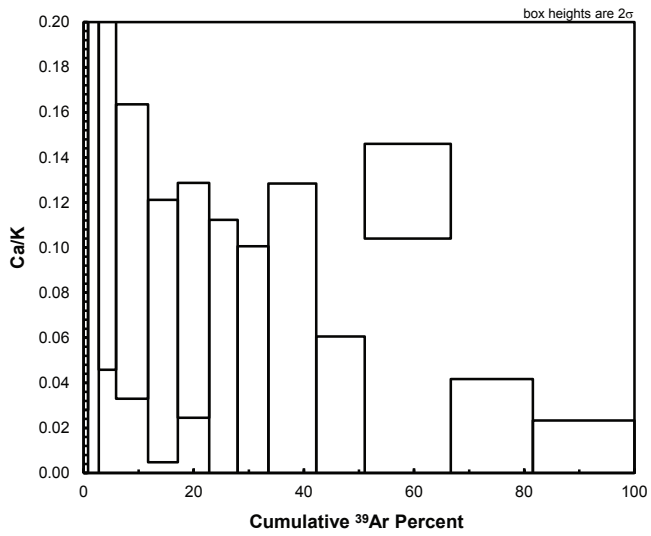

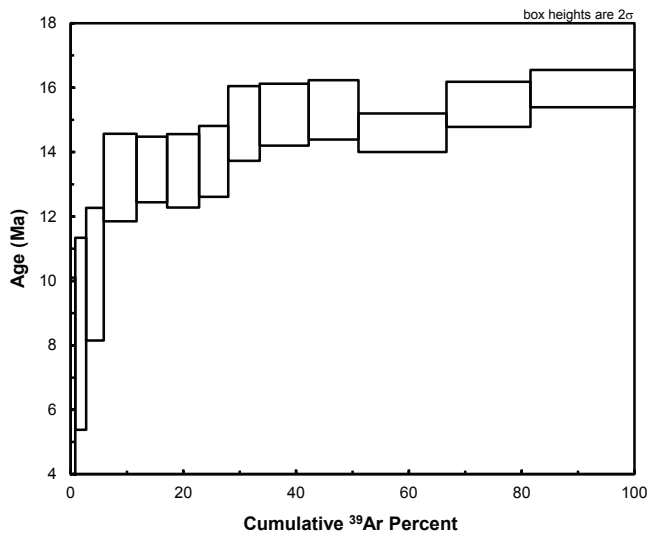

S8: 406042 muscovite 750 microns

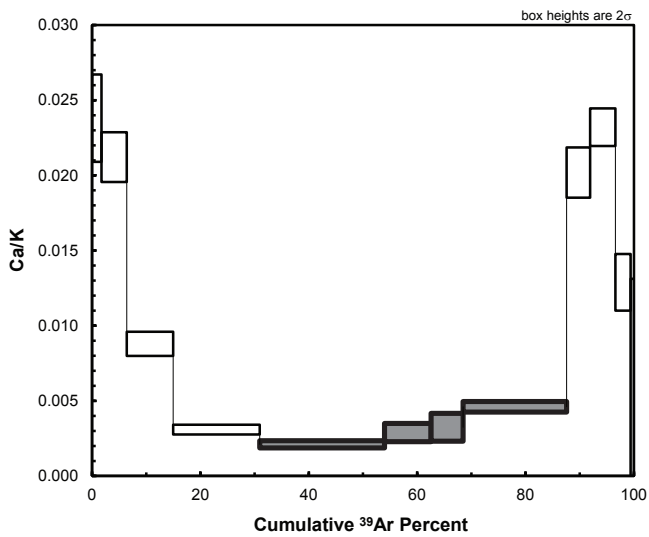

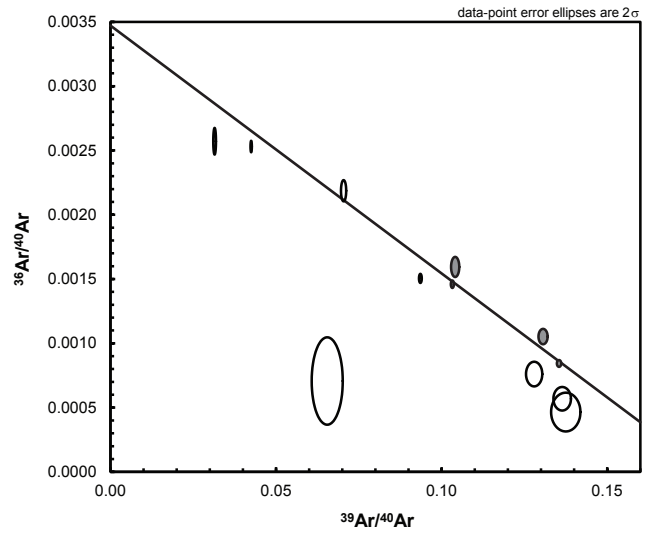

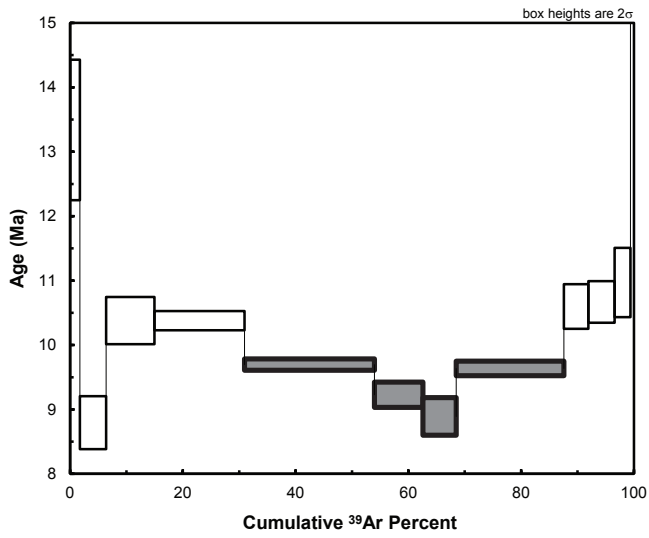

Steps shaded gray were used for age determinations.

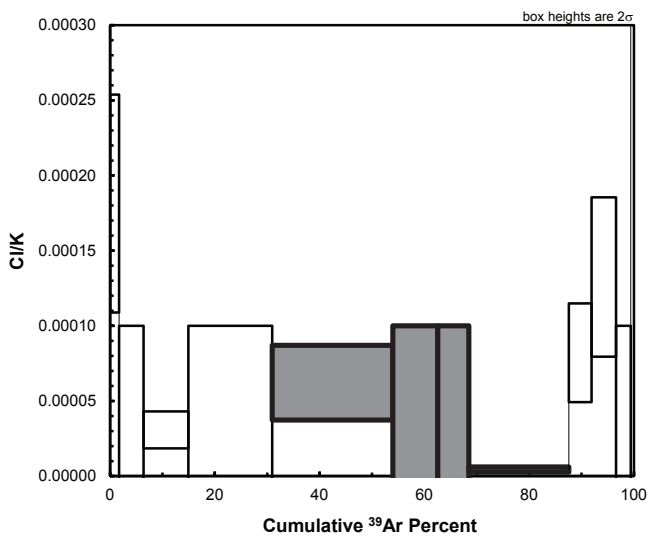

S9: 406042 biotite 200 microns

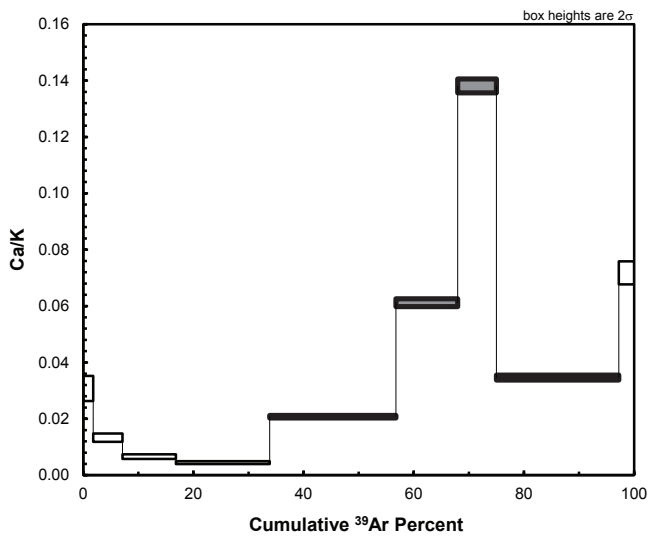

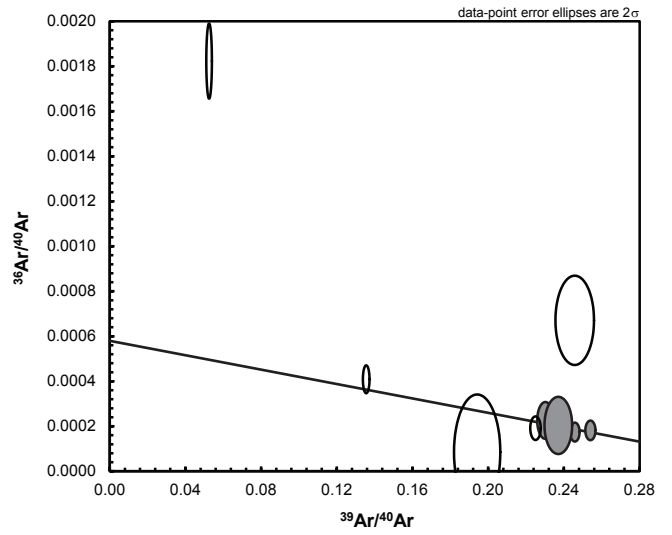

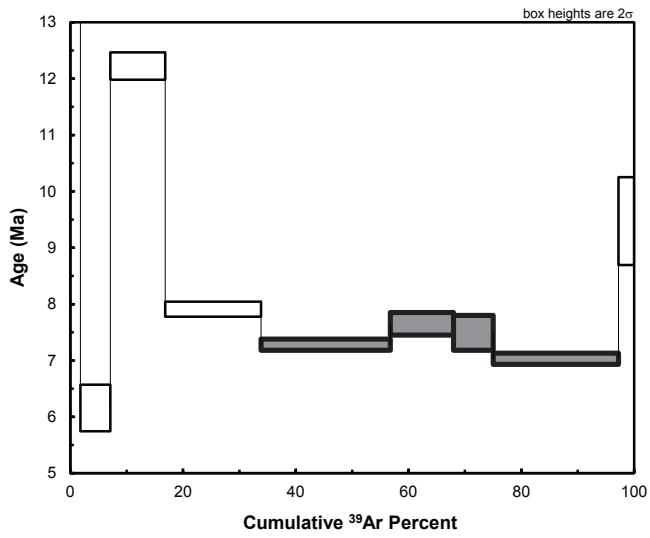

S10: 502071 muscovite

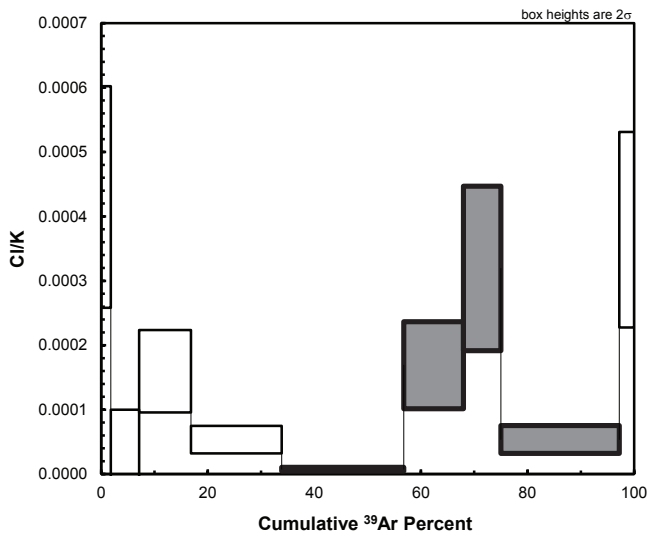

Steps shaded gray were used for age determinations.

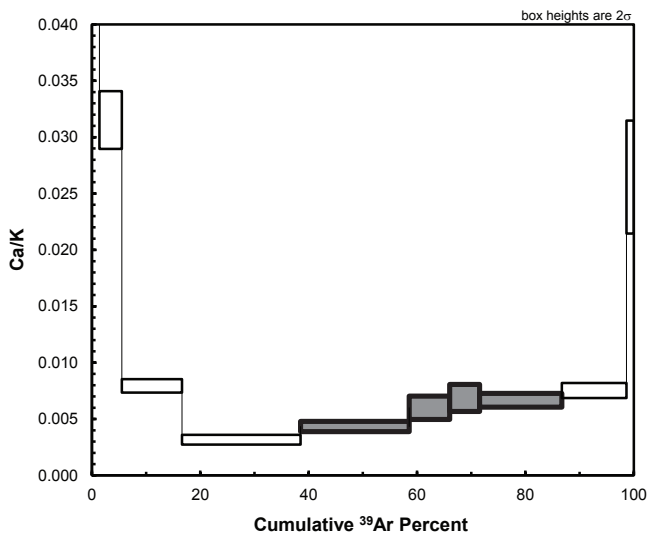

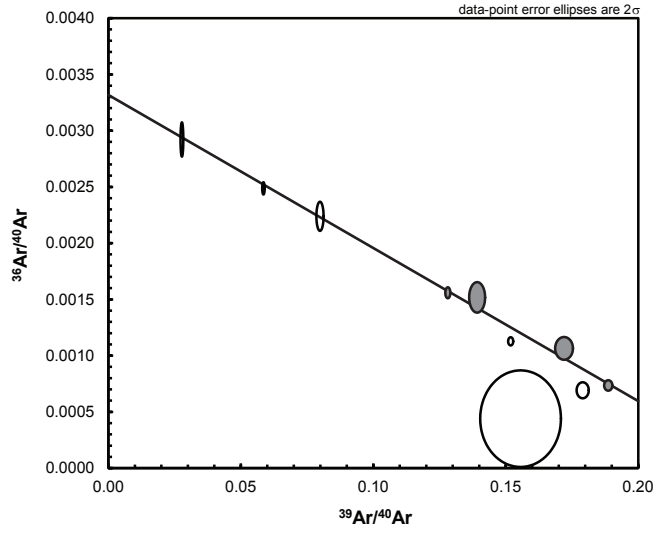

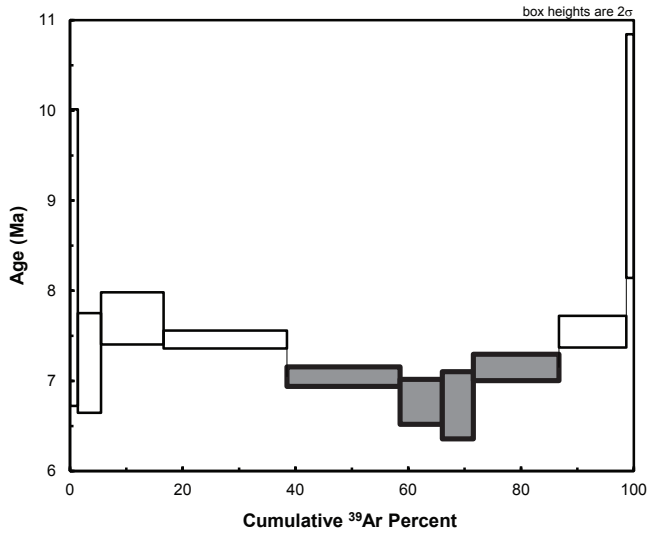

S11: 502079 muscovite

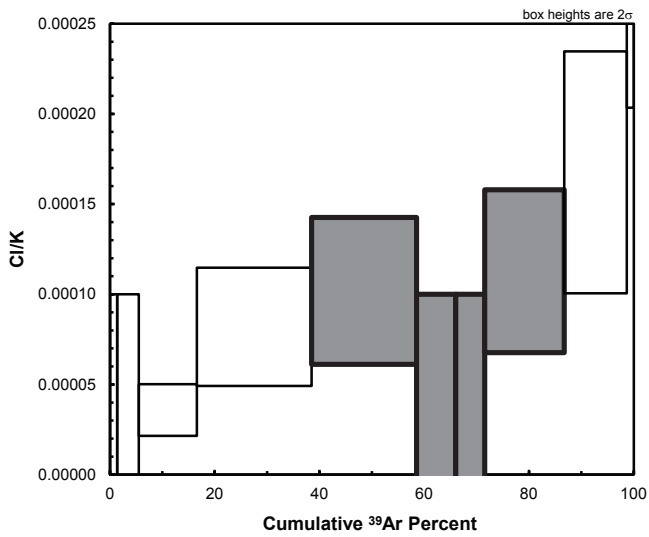

Steps shaded gray were used for age determinations.

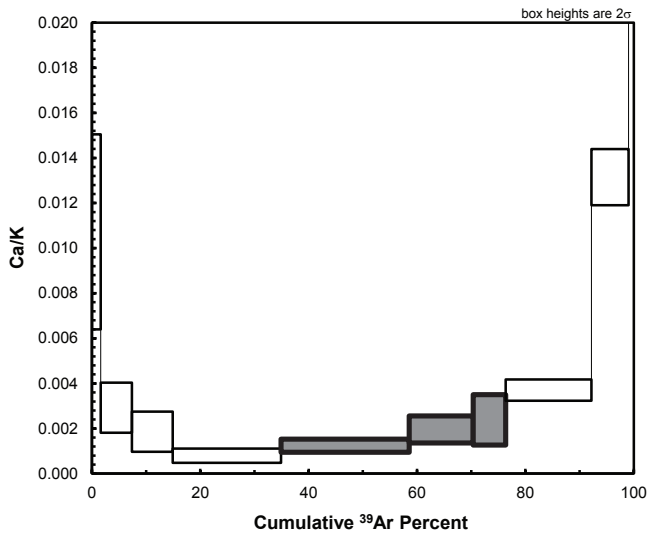

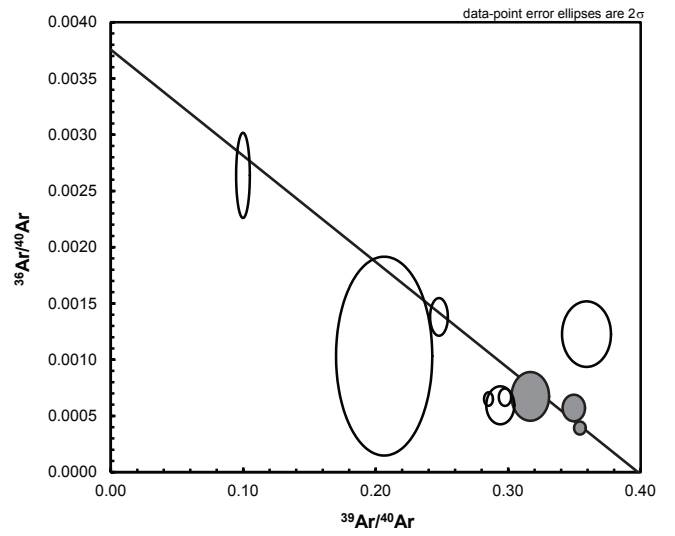

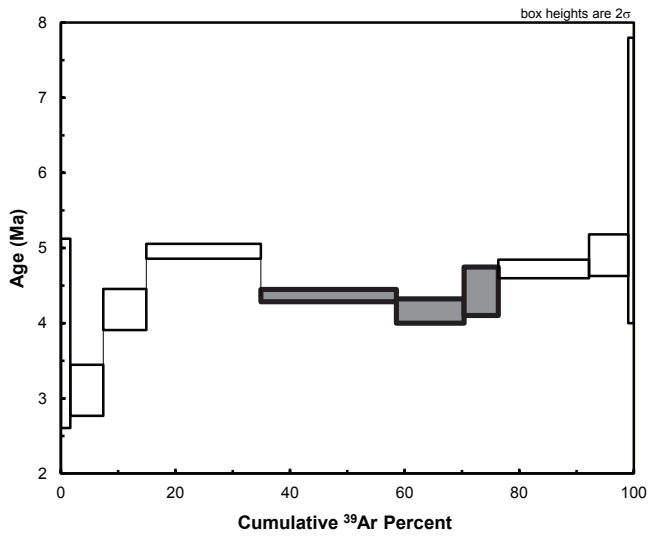

S12: 502102 muscovite

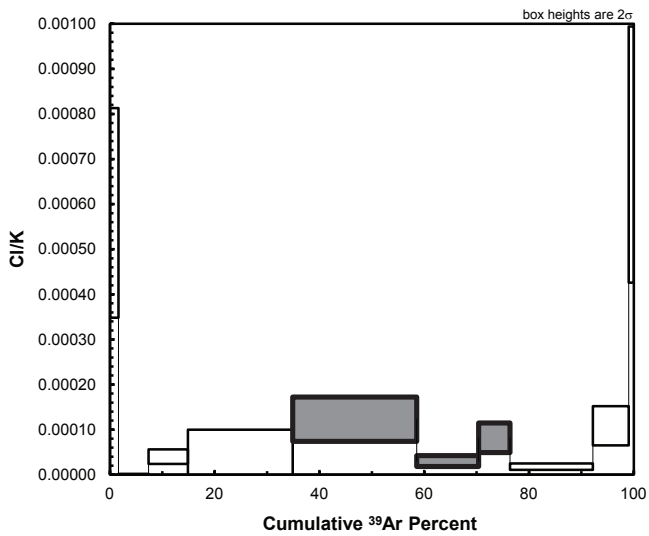

Steps shaded gray were used for age determinations.

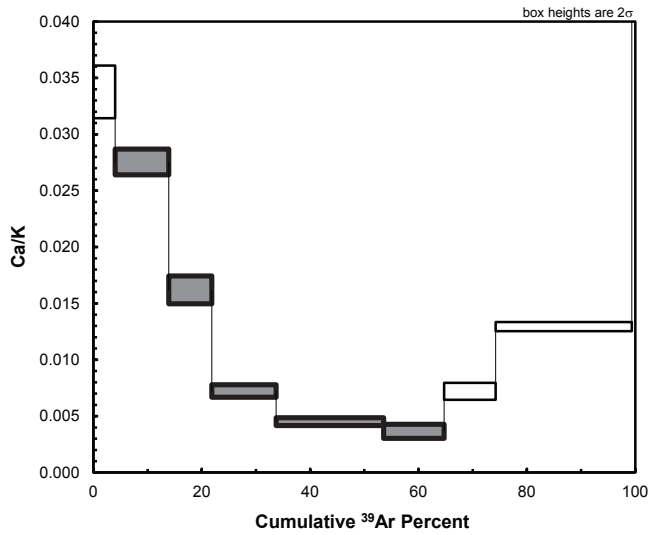

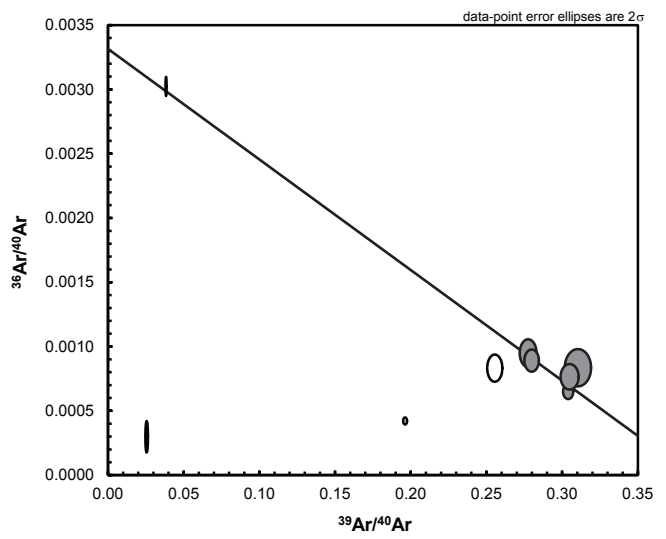

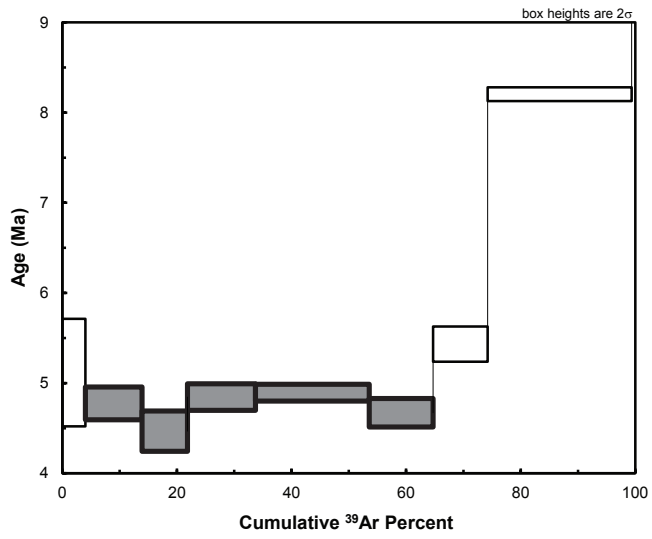

S13: 502107 muscovite

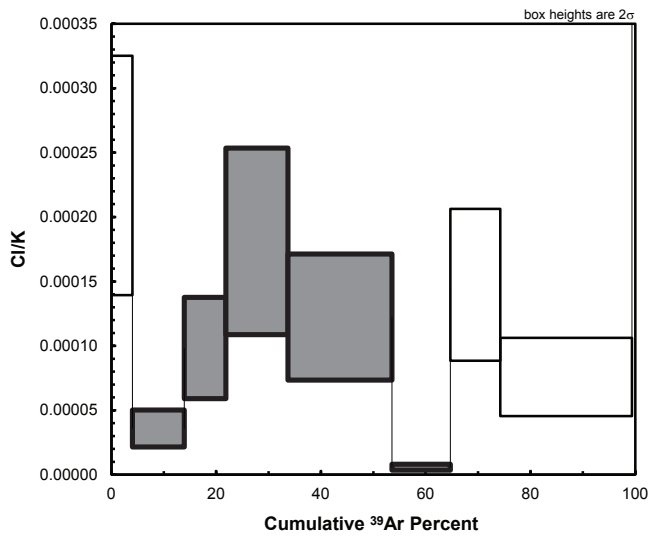

Steps shaded gray were used for age determinations.

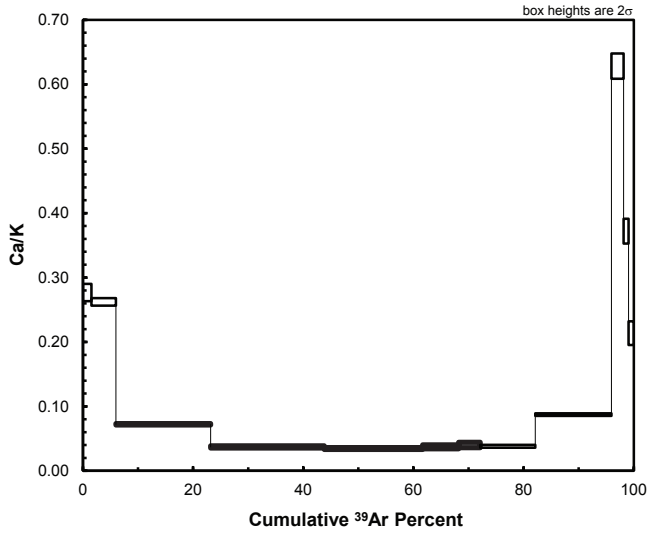

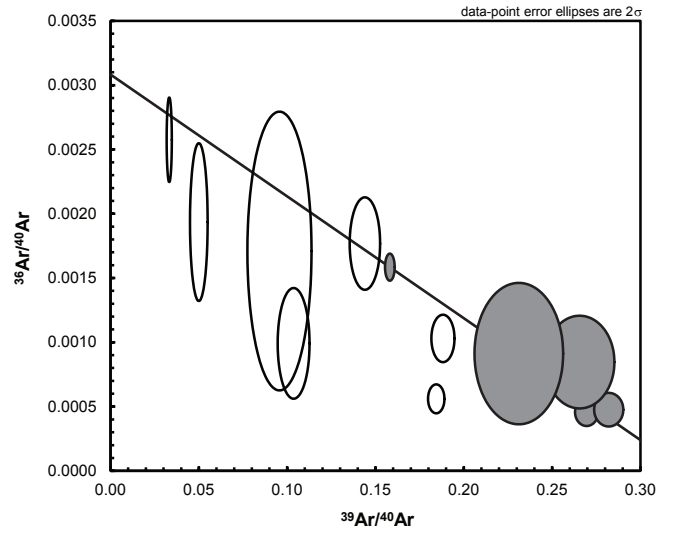

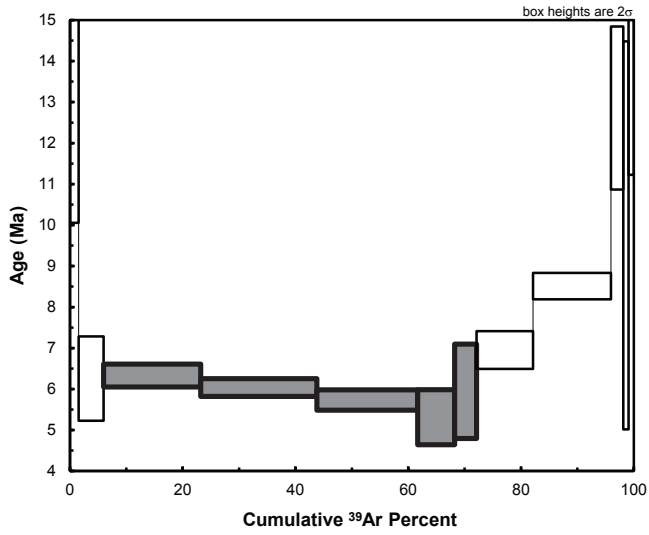

S14: 502112 muscovite

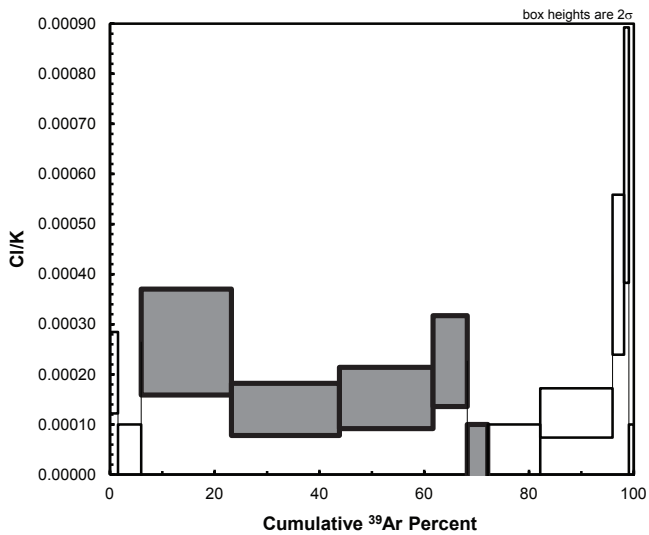

Steps shaded gray were used for age determinations.

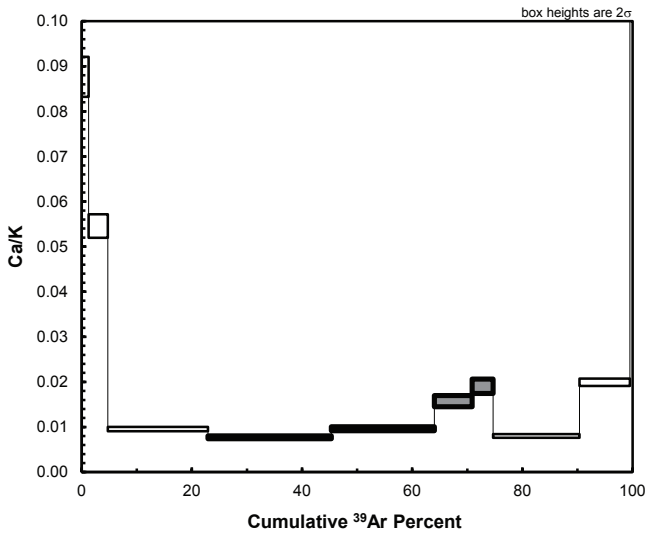

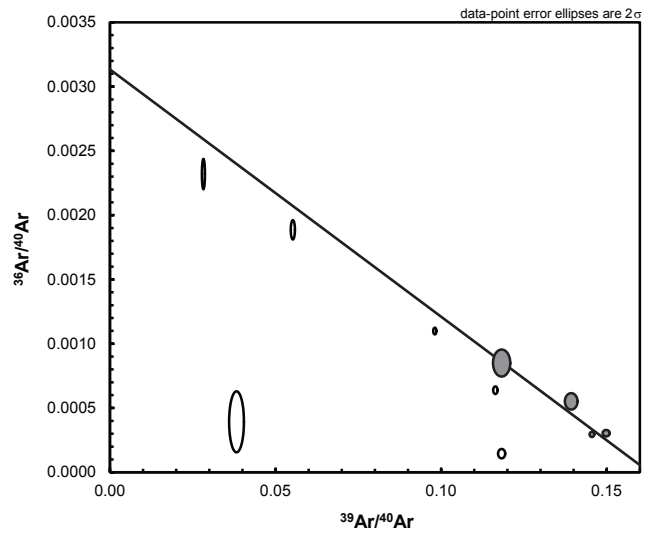

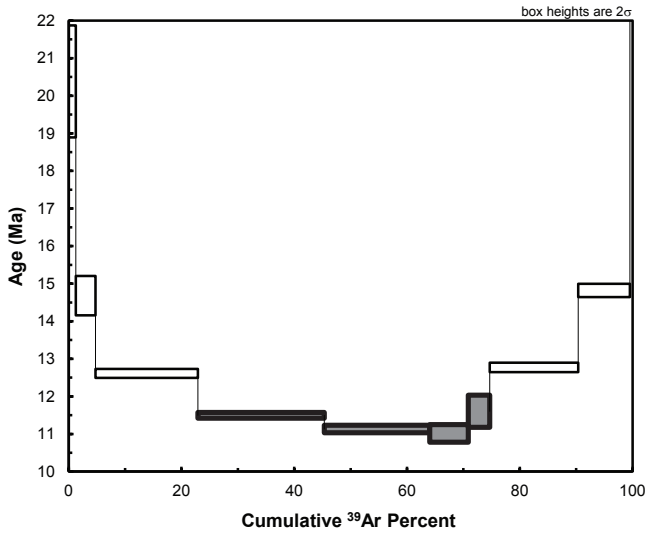

S15: 502121 muscovite

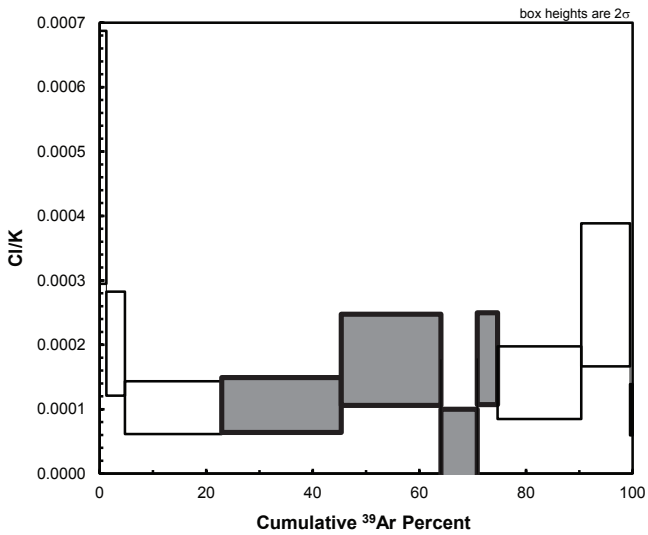

Steps shaded gray were used for age determinations.

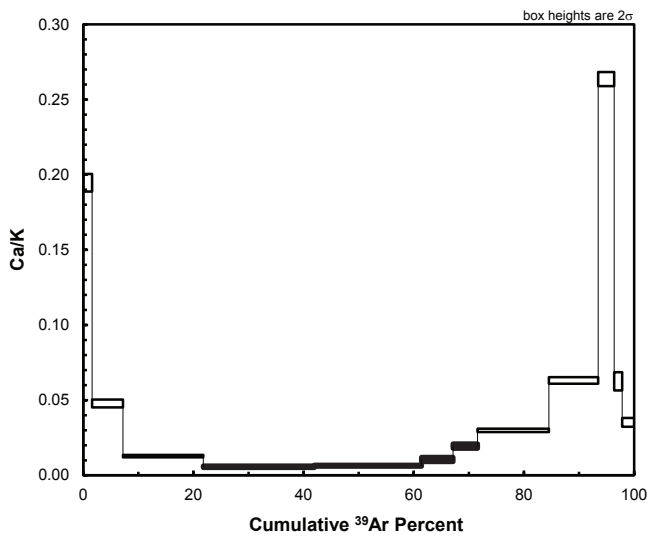

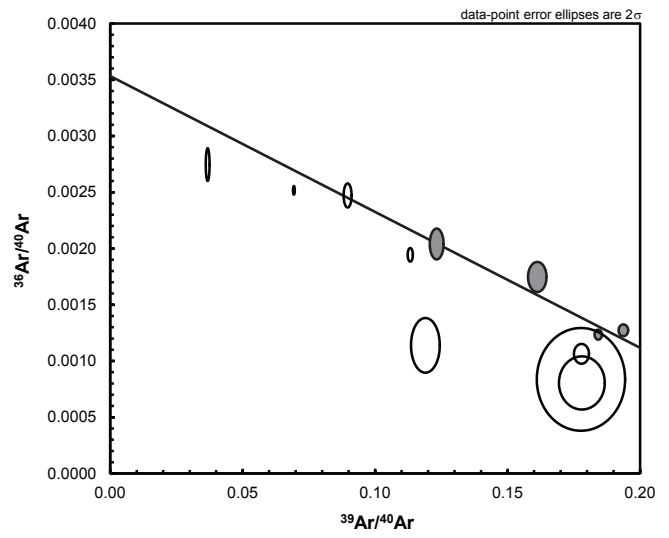

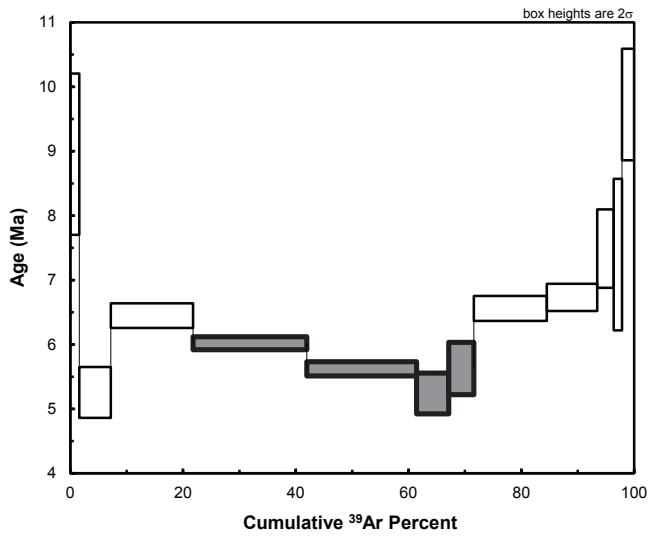

S16: 502127 muscovite

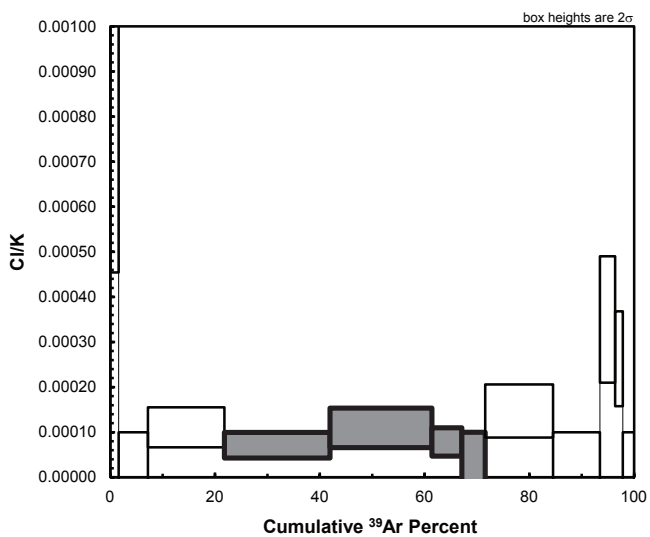

Steps shaded gray were used for age determinations.

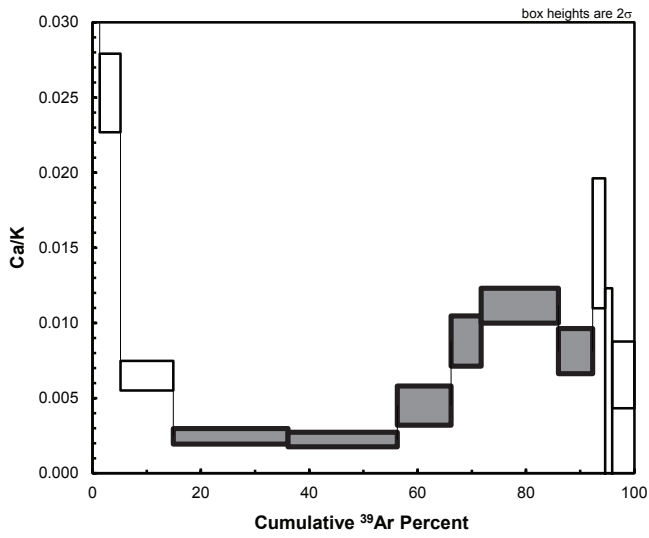

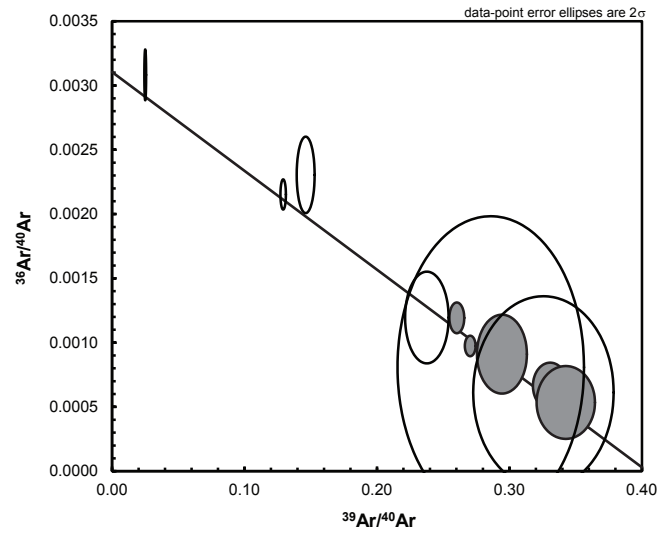

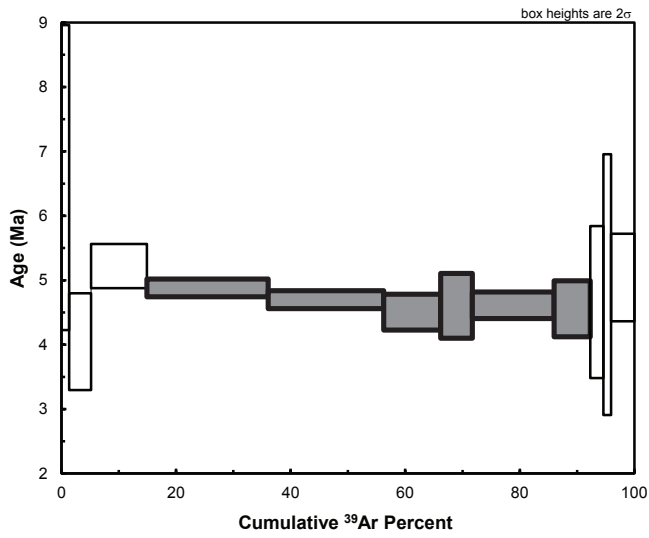

S17: 502132 muscovite

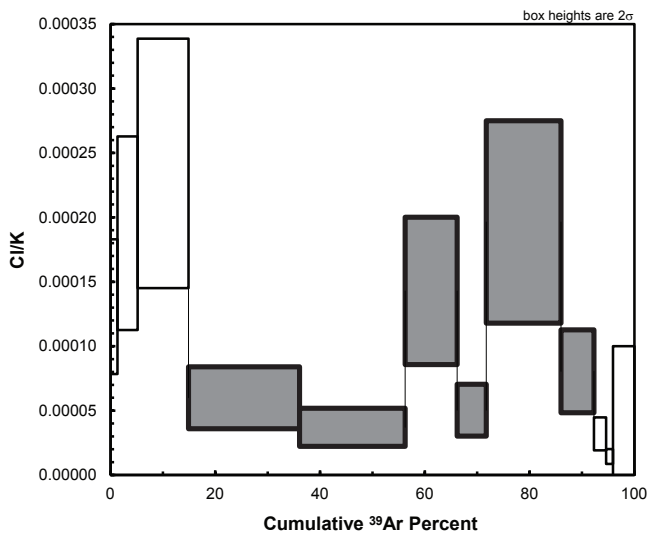

Steps shaded gray were used for age determinations.

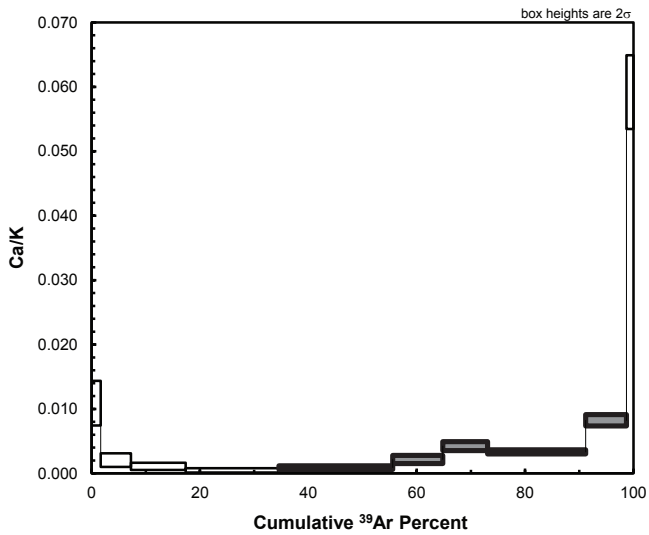

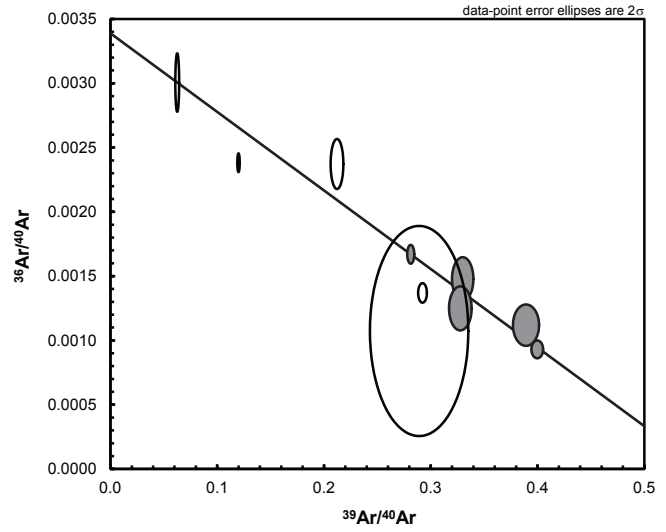

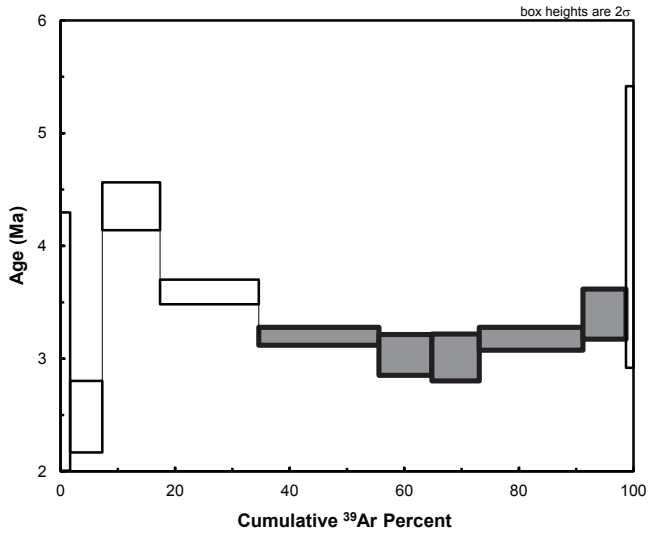

S18: 502150 muscovite

Steps shaded gray were used for age determinations.

S19: 502147 muscovite

Steps shaded gray were used for age determinations.
