

Shell London Lecture Series:
Stranger than Fiction: Worlds around and beneath us

www.geolsoc.org.uk/shelllondonlectures13

Geological Society of London

Lakes Beneath the Ice

SPEAKER: *Martin Siegert, University of Bristol*

Attempts to directly measure and sample subglacial Lake Ellsworth were unsuccessful in the recent Antarctic field season (Nov-Dec 2012). In this talk, I present why the experiment failed to work, and the lessons learned. I also provide an assessment on potential ways forward for the programme and their timeframes.

Date: Wednesday 18 December 2013

Timings: This lecture will be given at 3pm and 6pm on this day (with tea/coffee served for half an hour before each), so please let us know, when requesting a place, which talk you would like to attend.

Venue: The Geological Society of London, Burlington House

Entry to this lecture is free to all, but places are allocated on a ballot basis. Please call at reception (to your right) or contact the Society by post, phone, fax or email (see below).

December

2013 Programme

9 January	Reconciling past and future worlds: Geology and ground engineering	<i>Jackie Skipper, Geotechnical Consulting Group</i>
27 February	Landslides and subsidence: Engineering geology in an age of austerity	<i>David Shilston, GSL President</i>
27 March	Exceptionally preserved fossils: Windows on the evolution of life	<i>David Siveter, University of Leicester</i>
17 April	Rivers under the sea	<i>Jeffrey Peakall, University of Leeds</i>
29 May	CCS - Capturing Global Opportunities	<i>Paul Garnham, CCS Project Manager, Shell</i>
3 July	Life at deep-sea hydrothermal vents: biodiversity in a new resource frontier	<i>Adrian Glover, Natural History Museum</i>
11 September	Dwarfism in animals on islands	<i>Victoria Herridge, Natural History Museum</i>
9 October	The Mars Science Laboratory mission: The Curiosity Rover's exploration of Gale Crater	<i>Sanjeev Gupta, Imperial College</i>
20 November	Shearwater: Geology Under Pressure	<i>Caroline Gill, Senior Production Geologist, Shell</i>
18 December	Lakes Beneath the Ice	<i>Martin Siegert, Edinburgh University</i>
