

THE JANET WATSON MEETING 2017

The Future of Contaminated Land Risk Assessment: stakeholder perspectives

6-7 November 2017

The Geological Society, Burlington House, London

With 2017 being the 'Year of Risk' the Contaminated Land Group are proud to be hosting this year's Janet Watson meeting.

The conference will be exploring emerging science, technologies and guidance in the contaminated land industry, told from the viewpoint of all the key stakeholders: the site owner, consultant, contractor and regulator.

Keynote talks will be provided by accomplished industry leaders and the conference will provide a platform for scientific developments and innovative projects to be presented by the students, academics and early-career professionals working on them.

Conference themes

- Innovative investigation and risk assessment.
- Understanding, managing and communicating risk.
- Emerging remediation technologies.
- New guidance, standards, accreditation and the evolving role of the regulator.

The programme will be varied, including workshops, an expert panel discussion and presentations by speakers from a variety of backgrounds. Whilst offering all delegates the opportunity to become up to date with many of the latest technologies and guidance, this conference will also be an excellent opportunity for networking, and particularly beneficial for early-career professionals who are interested in or are currently working towards chartership in contaminated land.
