William Smith Meeting 2017

Plate Tectonics at 50

3-5 October 2017

The Geological Society, Burlington House

INVITED SPEAKERS

Nick Christie-Blick, Lamont-Doherty Earth Observatory, Columbia University, USA

John Dewey, University of Oxford, UK

Tony Doré, Statoil, UK

Cindy Ebinger, University of Rochester, USA

Hank Frankel, University of Missouri, Kansas City, USA

Catherine Johnson, University of British Columbia, Canada

Peter van Keken, Carnegie Institution for Science, Washington DC, USA

Mike Kendall, University of Bristol, UK

Xavier Le Pichon, Collège de France

Peter Molnar, University of Colorado, Boulder, USA

Christopher Scotese, Northwestern University, USA

Opening remarks by

Tony Watts, University of Oxford, UK

Closing remarks and introduction of the William Smith lecturer

James Jackson, University of Cambridge, UK

William Smith lecturer

Dan McKenzie, University of Cambridge, UK

Convenors

Rob Butler, University of Aberdeen, UK

Mike Daly, University of Oxford, UK

Gareth Roberts, Imperial College London, UK

Jonathan Turner, Radioactive Waste Management, UK

Tony Watts, University of Oxford, UK

On the 50th anniversary of the advent of the paradigm of plate tectonics, this three day meeting is convened to examine the state of the art and scope out new directions.

The conference will be drawn to a close by the 2017 William Smith lecture, delivered by Dan McKenzie.

The meeting will also be live streamed. If you would like further information about this and details of how to access the live stream, please contact Naomi Newbold (details below).

Further information

For further information about the conference please contact:
