

26th July 2018, Manchester University Place, Theatre A
**Contaminated Land and Groundwater:
 Resources past and future**

9:00 am	Registration and coffee	
9:30 am	Welcome	Molly Brown (IGE Consulting Ltd)
9:40 am	Industrial landfill remediation Badnells Pit and Sandford Farm landfill case studies	Dave Jacob (RSK)
10:05 am	Soil organic matter management	John Williams (ADAS)
10:30 am	Questions	Molly Brown (IGE Consulting Ltd)
10:40 am	Poster competition	Amy Juden (Arup)
11:00 am	Coffee	
11:20 am	Mines gas - hazards and opportunities	Simon Talbot (GGS)
11:45 am	Understanding former gasworks sites	Russell Thomas (WSP)
12:10 pm	Questions	Kristian Fox (Atkins)
12:20 pm	Lunch and posters OR workshop session 1	

1:30 pm	Lunch and posters OR workshop session 2	
	Workshop A: Room 4.211 BGS geoscience tools for brownfield practitioners	Darren Beriro (BGS)
	Workshop B: Room 4.212 Waste classification – down & dirty	Ian Bishop (One Touch Data)
	Workshop C: Room 4.213 Sampling Groundwater at Contaminated Sites	Peter Dumble (PD Hydrogeology) and Kayleigh Smith (Insitu)

2:30 pm	Welcome back	Katherine Ashdown (Jacobs)
2:35 pm	<i>The importance of appropriate water monitoring in sand and gravel quarries</i>	Deborah Thomas (Envireau Water)
3:00 pm	<i>Hydrogeological risk assessments for onshore oil and gas exploration projects</i>	Laura Ward (The Environment Agency) and Jenny Lightfoot (Arup)
3:25 pm	Questions	Katherine Ashdown (Jacobs)
3:35 pm	Coffee	
3:55 pm	<i>The potential of utilising heat energy from groundwater in abandoned coal mines: results of a ground investigation at Caerau, Upper Llynfi Valley, South Wales</i>	Peter Brabham (Cardiff University)
4:20 pm	<i>Historical landfill impact on groundwater - case study</i>	Leon Warrington (Hydrock)
4:45 pm	Questions	Clay Durrant (The Environment Agency)
4:55 pm	Results of poster competition. Interactive feedback session and closing remarks.	Sarah Hey (Hydrock)
5:30 pm	End of conference
