

-  Deformation zone, type and sense of movement not specified
 -  Ductile deformation zone, symbol on upthrown crustal segment
 -  Ductile deformation zone with dextral strike-slip component of movement
 -  Structural form line
 -  Direction towards crustal segments affected by higher grade metamorphism
-
- BSZ = Burträsk shear zone
 - DNSZ = Deppis–Näsiden shear zone
 - JGC = Jörn granitoid complex
 - KADZ = Karesuando–Arjeplog deformation zone
 - VRSS = Vidsele–Röjnoret shear system and its southern continuation to Nordmaling
